## Course Entry Requirements

Tracmin is dedicated to ensuring that all students have the best possible chance of success in their chosen course, and in their careers. To assist with this, Tracmin undertakes careful assessment of those who seek to enrol in its courses. This ensures that you are the right fit for the course, and that the course is the right fit for you. Where there are no formal entry requirements for this qualification, Tracmin requires students to meet the following criteria:

- Must have, or be willing to apply for, a Police Clearance
- Must have, or be willing to apply for, a Working With Children's Check
- Undertake a Language, Literacy and Numeracy (LLN) assessment

The purpose of the LLN assessment is to determine that your LLN skills are at a level that will give you every opportunity to successfully progress through and complete this qualification. If your LLN assessment results do not meet the required level, we will discuss the following options with you:

1. Undertake foundation skills course work to assist in improving your LLN skills to a level that meets this entry requirement; your enrolment will not proceed at this time.
2. Prepare a support plan that outlines support measures that will assist in the development of your LLN skills whilst participating in the training program

The LLN assessment will be conducted online and requires at least a basic level of computer literacy to complete. Our staff will be able to guide you in terms of access to the system however they are NOT permitted to assist in the completion of the assessment.

The Suitability Discussion will be undertaken with a staff member and will focus on ensuring that you fully understand the course structure, delivery strategy, assessment process, and all other relevant details of your selected course. The discussion will also encompass your career goals, and to finally ensure that the selected course is the right one for you.

Between these two processes, a determination will be made regarding course entry. In some cases, the result may be admission with support and where this is required, the support strategy will be discussed and agreed upon in consultation with you prior to the commencement of your training program.

## 8. Training and Assessment Policy

### 8.1 Policy

Tracmin will ensure that high-quality training and assessment practices are implemented so that students are equipped for employment and/or for further study. Additionally, Tracmin will ensure that the training and assessment practices lead to employers having confidence that graduates hold the skills and knowledge necessary to enter the relevant job market.

### 8.2 Overview

This policy is designed to ensure that assessment within the organisation:

- Meets the needs of all students, clients, staff and stakeholders
- Provides clear guidelines for staff on assessment practices
- Meet the requirements outlined in the principles of assessment and rules of evidence
- Is undertaken by qualified trainers and assessors
- Meets the requirements of all training package and relevant regulatory bodies

### Qualification Structure

A qualification is made up of multiple units of competency. Some of the units of competency which make up the qualification are required to be completed by all students, regardless of the RTO they are studying with and these units are called core units. Other units are selected from a list of options for each qualification which are called elective units.

### Delivery Mode

Tracmin delivers courses in a variety of ways, and you will be informed through Tracmin's marketing and your enrolment documentation of the method being used to deliver your course. Examples of some of the different types of training delivery which may occur include:

- Classroom training – traditional training which takes place in a classroom or a simulated work environment, such as you would experience at a university or school
- Online or blended training – a combination of eLearning activities and classroom training which provides flexibility for studying at your own pace and in a place and time of your choosing
- Workplace training – training which occurs partially or completely in your workplace, with a trainer coming to see you as you work so that they can instruct you and assess your performance
- Apprenticeship and traineeship training – bonded training which includes a formal agreement between your employer, Tracmin, you, an Australian Apprenticeship Support Network (AASN) provider, and the Australian government.

## Training and Assessment

**Training** refers to the delivery of content relating to each unit of competency according to the Tracmin's delivery schedule. It covers the required knowledge for each unit of competency to teach and prepare you for assessment in each unit. Training delivery can include:

- Trainer led delivery of content
- Class activities
- Activities that allow you to put in practically apply things you have learnt
- Simulations
- Group discussions

**Assessment** is the process of determining your competence in both the skills AND knowledge required for successful completion of each unit of competency. You will be assessed on the level of your performance of your skills required for each unit as well as your knowledge of the topic. Assessment methods can include:

- Observation of practical skills
- Portfolios of evidence you have collected
- Group project/presentations
- Written/verbal assessment of your knowledge
- Written projects/reports

To be deemed competent in a unit of competency you must successfully complete all tasks in the assessment for that unit of competency. This will involve performing tasks and answering questions related to the requirements of that unit of competency and will always involve at least two different assessment methods.

For each assessment task for a unit of competency, you will be given an outcome of either 'Satisfactory' or 'Not Yet Satisfactory'. If you receive an outcome of 'Not Yet Satisfactory' for any tasks within an assessment, you will receive an overall result of 'Not Yet Competent' for the unit of competency. This means that you will need to resubmit one or more of the tasks to achieve a 'Competent' result. Once all tasks have been deemed 'Satisfactory' you will receive a 'Competent' result which means you have successfully completed the unit of competency.

If you have any questions about training or assessment of your qualification, please speak with your trainer and assessor.
